## **DETAILED ACTION**

### ***Response to Amendment***

The applicant's amendment has been entered because it incorporates the independent claims into the previously objected to dependent claims that were indicated as allowable over the prior art of record in the Final Office Action mailed on 8/13/2007. Prosecution however has been reopened since claims 24-33 and 39 are not directed towards statutory subject matter and therefore are rejected based on 35 USC section 101.

### ***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 24-33 and 39 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 24-33 and 39 are directed towards a machine readable medium. Paragraph 3 of the applicant's specification states that: "A machine readable medium can include software or a program or programs for causing a computing device to perform the exemplary method". Since the applicant's description of a machine readable medium only comprises software, claims 24-33 are rejected as being directed towards software per se. Software per se does not fit into any of the statutory categories of invention.

### ***Allowable Subject Matter***

Claims 2-11, 13-22, 34-35 and 37 are allowed for the reasons indicated in the Final Rejection mailed on 8/13/2007.

Art Unit: 2142

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
